**Addendum No. 2**

C. Section 15005 – GENERAL SEWER PIPING

Add the following section after Section 3.8 – Final Sewer Cleaning:

“3.9 Individual Joint Testing

Schedule proposed tests with Engineer at least 3 working days in advance.

A. This testing shall be applicable for all DIP and RCP pipe joints located after the VPI joint located at Station 56.29, including the joint that connects the DIP installed on the west side of the river with the DIP installed on the east side of the river.

1. Individual Joint Testing: Use equipment suitable for air and/or water.
  - a. Conduct individual joint air tests after each pipe joint has been completed.
    - 1) Before testing first joint beyond pipe/manhole connector, brace or block first length installed out of manhole.
    - 2) Conduct individual joint tests as follows:
      - a) Clean joint area, and at Contractor's option, wet joint area before placing air test equipment.
      - b) Position joint tester so end elements are located on both sides of joint to be tested.
      - c) Inflate end sealing elements to pressure specified by manufacturer of equipment.
      - d) Determine depth of groundwater level above inverts immediately before testing.
      - e) Pressurize center cavity with air or water following manufacturer's recommendation through separate pressurizing lines to 3.5 psi.
      - f) Engineer will increase gage pressures accordingly but total pressure including increased amount of groundwater backpressure at springline of pipe shall not exceed 5.5 psi.
      - g) Pressure relief device may be installed to pressurizing line to avoid over pressurization.
    - 3) Allow test pressure to stabilize and maintain for approximately 10 to 15 seconds, and then turn off pressure source.
      - a) If pressure holds or drops less than 1.0 psi in 10 seconds or more, joint is acceptable.

**CSO 002 River Crossing**  
**Project No. 2008-0036**

**Addendum No. 2**

- b) Remove equipment by releasing air from center cavity and then from end elements.
- 4) If test fails, check leakage of air or water at end sealing elements.
  - a) If leakage is at end sealing elements, eliminate this leakage and perform retest.
- 5) If pipe joint fails test, remove pipe length(s), inspect joint area for defects and correct, clean joint area and rejoin pipe.
  - a) Repeat joint test procedure as stated above.
  - b) To be accepted pipe joint must pass air test.”

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
 Wage and Hour Division  
 U.S. Department of Labor

200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
