WEST LAFAYETTE, IN

Dear Sirs.

Your company just finished a water main project in the Town of Wheeler in unincorporated Porter County.

I want to commend you on your choice of Tony Kinsler to oversee this project. Porter County had many concerns about the roads in Wheeler that were paved in the last five years. The towns people of Wheeler had waited almost thirty years to get there roads paved and did not want them to be torn up.

Also, south Wheeler has only one main road with gates and flashers across the railroad, and a small road without gates and flashers.

We asked Tony to keep one lane open at all times on the main crossing for the safety of the public.

Tony met all our concerns about the roads and the public with the least amount of damage. When I had a problem which was almost nonexistent, I would call Tony and he would take care of it ASAP.

Also, I would like to commend your crew on this job. They were always polite to me and the public.

Atlas Excavating has a good reputation in Porter County and I am looking forward to working with your crews in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Albertson".

Carl Albertson,  
Porter County Utilities Inspector
